Attention: Captain A. James

From: **DEPARTMENT OF CALIFORNIA HIGHWAY PATROL**
Office of the Assistant Commissioner, Inspector General

File No.: 005.9968.015989.010

Subject: 2009 COMMAND PROPERTY INSPECTION REPORT

State Administrative Manual (SAM) Section 8652 requires Departments to conduct a physical count of all state owned property and reconcile the count with accounting records at least once every three years. Departmental records indicate the last command inventory by the Ventura Area was conducted on May 19, 2008. In order to provide independent verification and reasonable assurance to the Office of the Commissioner that California Highway Patrol inventory records are complete and accurate, your command was selected for a property inspection.

In accordance with procedures outlined in Highway Patrol Manual (HPM) 11.2, Materials Management Manual, and HPM 22.1, Command Inspections Program Manual, an inspection of your command's property, including vehicles and weapons, was completed by the Property Inspector (PI) on November 9, 2009. Using property records from the appropriate Offices of Primary Interest (OPI), the PI selected a random statistically-valid sample of property that was stratified across four property areas: general inventory control, telecommunications, fleet, and weapons (see Attachments B, C, D, and E). Additionally, the PI chose items within your command and compared them to the appropriate inventory records.

According to the OPI inventory lists, the command had a total property inventory population of 770 items (a). The statistically-valid sample at a 95 percent confidence level \pm 5 percent error rate provided a total stratified sample size of 59 items when rounded up to the next whole number (d).

Safety, Service, and Security

	Population Size	Percentage of Total	Calculated Sample Size	Predetermined List Sample Size
	(a)	(b)	(c)	(d)
ICU Decals	269	34.94%	19.92	20
Telecommunications	303	39.35%	22.43	23
Fleet	46	5.97%	3.40	4
Weapons	152	19.74%	11.25	12
Total	770			59

When comparing equipment recorded on the predetermined property inspection list to equipment located at the command, 56 of the 59 items were located. One item was transferred out of the Area by a Credit Memo – Equipment form, CHP 266, and one item was transferred out of the Area by a Radio Extender Adjustment Record form, CHP 331. One item could not be found at the Area during the inspection but may be located at Area 074 - Motor Transport. The Area will reconcile the item with Telecommunications Section. One item was unavailable for inspection because it was disposed of due to its irreparable condition. The Area submitted a memorandum explaining the disposition of the item which is included in this report. Furthermore, two items require corrections be made to the command's property record. Ten items were unavailable for inspection due to employees being out of the office and or the weapons were in enforcement vehicles that were on patrol. However, photographs of all ten items are included with this report; thus, will not be noted in Attachment A. The property inspection results of the equipment recorded on the predetermined property inventory list to equipment located at the command are summarized in Attachment A.

When comparing equipment assigned to the command to the OPI inventory lists, 88 of the 92 items reconciled. Three of the items were not listed on the appropriate OPI inventory lists. The Area provided two Motor Vehicle Assignment and Transfer forms, CHP 57, and a CHP 266 form to reconcile these items. One additional item requires a correction be made to the command's property records. The property inspection results of equipment located at the command to the OPI inventory list are summarized in Attachment A.

I request your command research and investigate all discrepancies in accordance with departmental procedures outlined in HPM 11.2, Materials Management Manual, Chapter 8, Equipment, and work with the appropriate OPI(s) to rectify any variances. A Physical Inventory Adjustment Request, CHP 24, must be completed to adjust the inventory records. In order to verify that the above listed discrepancies have been rectified, please submit a memorandum to the Office of Inspections through your respective Division by March 17, 2010.

Furthermore, in accordance with the Governor's Executive Order S-20-09 to increase government transparency, this report will be posted on the CHP's internet website, and on the Office of the Governor's webpage, located on the State's Government website.

The Office of Inspections would like to thank your command for their assistance during this property inspection. If you have any questions or need additional information, please contact me or Roger Ikemoto, Senior Management Auditor at (916) 843-3160.

Subject: LOST OR MISSING PROPERTY

On October 9, 2009, a Property Inspection was conducted by Officer Robyn Madeira, #15989, of the Office of Inspections in the Ventura Area. During the inspection it was determined that a Pro-Man Mannequin with item tag #112047 could not be located. Lieutenant Baxter discussed this missing item with Sergeant J. Davy, #11995, who has been responsible for the Area Inventory in the past. Sergeant Davy related the mannequin had been damaged beyond repair during training and had been placed in the Armory waiting for proper disposal. While preparing to work the range he noticed the mannequin was no longer in the Armory. He asked Officer R. Mohun, #14535, if he was aware of what had happened to it. Officer Mohun related he had thrown it into the Area's dumpster while cleaning out the Armory. He admitted he had taken it upon himself to do this without prior approval from a Supervisor. Officer Mohun was counseled on the proper handling of departmental equipment.

It is my opinion based upon the information received by two sergeants that the mannequin was damaged beyond repair and that the Officer Mohun acted in good faith and without malicious intent that this item be removed from the Area's inventory.
